in Aukarel Samuel Mokanyane

I am a passionate and adaptable Information Technology student eager to jump into a dynamic work environment and make a real impact. My academic background and hands-on experience have shaped me into a solution-oriented professional who thrives on turning technical challenges into successful projects.

With practical skills gained through working on diverse technology initiatives, I have developed proficiency in:

- API integration and development for seamless system communications
- Power BI for crafting data-driven visualizations and actionable dashboards
- UI Path to streamline workflows through automation
- .NET Framework for building robust, scalable applications

My experience includes collaborating on multifaceted team projects, where I learned the value of communication, adaptability, and innovation. I am driven by curiosity and the pursuit of continual learning –always exploring emerging technologies and best practices.

Equipped with a strong foundation in IT principles and a genuine enthusiasm for problem-solving, I am confident in my ability to contribute fresh ideas and energy to your team. I am excited to deliver measurable results, support organizational goals, and grow alongside forward-thinking professionals.

I welcome the opportunity to bring my technical abilities, creativity, and collaborative spirit to your company.
